## RESPONSE TO RESTRICTION REQUIREMENT

Commissioner for Patents Washington, D.C. 20231

Sir:

This is in reply to the Office Action mailed July 30, 2002.

Applicants hereby provisionally elect the claims of Group I, claims 1-15, drawn to microorganism and composition, for prosecution in the subject application. Applicants, of course, reserve the right to file divisional applications covering the subject matter of the non-elected claims.

The claimed inventions of Group I and Groups II-III are related as product and process of use. According to MPEP § 803, if "the search and examination of an entire application can be made without serious burden, the Examiner must examine it on the merits, even though it includes claims to distinct or independent inventions." Applicants contend that this is the case in the present application. However, the examiner has not shown that it will be a serious burden to examine the claims of Groups II and III concurrently with the claims of Group I. Thus, applicants believe that

Atty. Dkt. No. 024018-0105

searching and examining all of the claims of Groups I, II and III would not place an undue burden on the examiner.

Finally, even if the restriction between Group I, and Groups II and III is proper for purposes of initial examination, the PTO is obliged, under the doctrine set forth in In re Ochiai, to rejoinder of the claims of Groups II and III upon a finding of allowability of the claims of Group I.

Accordingly, Applicants respectfully request that the examiner reconsider the restriction requirement of Group I, II and III, and examine all of the claims for the reasons set forth.

Receipt of the initial Office Action on the merits is awaited.

Respectfully submitted,

**FOLEY & LARDNER** Washington Harbour 3000 K Street, N.W., Suite 500 Washington, D.C. 20007-5143
